

Wall collar

KG-FIX

KGF110

Article no.: 3030537182, GTIN: 4052487244879

- **quick, tool-less installation**
- **contains recycled plastic**
- **high dimensional stability thanks to two components injection molding**

Water barrier flange for pressure-tight connection of waste water pipes in floor slabs.

Picture may differ from selected product

FACTS

Advantages:

- Water barrier flange with integrated rubber profile ribs
- Installation without lubricant
- Suitable for all standard smooth pipes

Dimensions:

- Water barrier flange all around: 50mm
- Socket length: 60mm

Properties:

- 2 pieces of TPE profile double sealings

Application range:

- Waterproof concrete stress class 1 and 2

Material:

- Profile sealing: TPE
- Water barrier flange: ABS regranulate
- 68 % regranulate

Tightness:

- pressure-rated up to 5,0 bar
- Radon-proof

FEATURES

Wall collar OD (mm):	212
suitable for medium pipe OD (mm):	110
Packing unit:	1
