

# Wall collar

#### **KG-FIX**

# KGF125

Article no.: 3030537197, GTIN: 4052487244787

- contains recycled plastic
- high dimensional stability thanks to two components injection molding

Water barrier flange for pressure-tight connection of waste water pipes in floor slabs.

Picture may differ from selected product

## **FACTS**

### **Advantages:**

- Water barrier flange with integrated rubber profile ribs
- Installation without lubricant
- Suitable for all standard smooth pipes

#### **Dimensions:**

- Water barrier flange all around: 50mm
- Socket length: 60mm

## **Properties:**

• 2 pieces of TPE profile double sealings

## **Application range:**

• Waterproof concrete stress class 1 and 2

### **Material:**

- Profile sealing: TPE
- Water barrier flange: ABS regranulate
- 68 % regranulate

## **Tightness:**

- pressure-rated up to 5,0 bar
- Radon-proof

# **FEATURES**

Wall collar OD (mm): 227 suitable for medium pipe OD 125 (mm): Packing unit: 1
