

Wall penetration double socket

DMF160/250 KG

Article no.: 3030551743, GTIN: 4052487246811

- **ready for wall installation**
- **pressure-sealed after concrete curing**

Wall penetration for connecting standard KG/HT pipes on both sides using push-in sleeves. Gas and watertight wall penetration thanks to integrated lip seal.

Picture may differ from selected product

FACTS

Advantages:

- can be installed easily and quickly on-site
- ideal for stock-keeping
- pressure-resistant solid wall material
- available in KG and KG2000
- no interruption of the waste water pipe system
- with push-fit socket on both sides to accommodate standard KG/HT pipes

Scope of delivery:

- 2 pieces of mounting covers

Properties:

- for installation flush with the formwork
- with socket on both sides

Application range:

- Waterproof concrete stress class 1, waterproof concrete stress class 2

Material:

- KG socket: PVC-U / KG2000 socket: PP
- Lip seal: TPE

Tightness:

- pressure-rated up to 5,0 bar - equivalent to 50 m of water column

FEATURES

Nominal diameter of KG pipe:	DN 160
Wall thickness (mm):	250
Packing unit:	1
