

Wall terminator element

For fibre-optic building entry

GFH WAE

: 3030315305, GTIN: 4052487226417

- **Fastening of micropipes possible without need for additional cable ties**

- **Octagonal shape for easy alignment**

Wall terminator element suitable for fibre-optic building entry. For safe rerouting of fibre-optic micropipes inside buildings. Fixation of micropipe without additional cable ties possible. Made from flame-retardant plastic.

Advantages:

- Installation flush with floor possible for inclined building entries
- Easy-to-open cover with locking mechanism

Scope of delivery:

- incl. required screws and dowels

Dimensions:

- Height: approx. 200 mm
- Octagonal flange: 65 mm
- Depth incl. cover: approx. 45 mm

Application range:

- Suitable for micropipes up to 20 mm

Material:

- Flame resistant polycarbonate
