

Universal wall sleeve

for any type of wall

UFR

- **Flange for plastic-modified bitumen thick coatings**
- **Tested solution for use in pre-applied membrane sheet systems**
- **Can be used in all wall types with three sealing levels**

Allows sealing in all wall types thanks to the combination of a flange and 3-ribbed seals. For setting in concrete, closed on both sides ready for installation.

Picture may differ from selected product

FACTS
