FACTS

Advantages:

- Suitable for the use of press seals
- Can be used for double element walls
- Other lengths on request
- Can be cut to length on site
- light weight
- Simple installation in the formwork

Scope of delivery:

- Wall sleeve with special coating
- 2 pieces of closing covers

Dimensions:

- Pipe length \leq 600 mm: fully coated wall sleeve
- Pipe length $>$ 600 mm: partially coated wall sleeve

Properties:

- FHRK-certified
- Ready for installation with closing cover
- Dimensionally stable
- resistant to cracking

Application range:

- Waterproof concrete stress class 1 and 2

Material:

- Pipe: PVC-U
- Closing cover: PE

Tightness:

- gastight and watertight

FEATURES

Wall sleeve ID (mm): 200
Wall sleeve OD (mm): 219
Wall thickness (mm): 700
