

Renovation wall sleeve

SFR150/300

: 930000140, GTIN: 4052487025362

For retrofit installation in brickwork or concrete walls.

Advantages:

- Can be cut to length on site
- Compact design accommodates smallest possible drill holes/break-throughs

Dimensions:

- Wall thickness: 4, 5 and 6 mm

Properties:

- Roughened surface for connection to wall
- Break-resistant, inherently stable
- For retrofit installation in break-throughs

Application range:

- Waterproof concrete stress class 1, waterproof concrete stress class 2

Material:

- Pipe: PVC-U

Wall sleeve ID (mm): 150
Wall sleeve OD (mm): 162
Minimum drilling
(mm): 250
Lenght (mm): 300
