

# Renovation wall sleeve

SFR200/400

: 930000230, GTIN: 4052487025454

For retrofit installation in brickwork or concrete walls.

## Advantages:

- Can be cut to length on site
- Compact design accommodates smallest possible drill holes/break-throughs

## Dimensions:

- Wall thickness: 4, 5 and 6 mm

## Properties:

- Roughened surface for connection to wall
- Break-resistant, inherently stable
- For retrofit installation in break-throughs

## Application range:

- Waterproof concrete stress class 1, waterproof concrete stress class 2

## Material:

- Pipe: PVC-U

Wall sleeve ID (mm):	200
Wall sleeve OD (mm):	214
Minimum drilling (mm):	300
Length (mm):	400
