

Cross-clamp

for perimeter insulation applications

HEA KKL DM M12 A4

: 1700130010, GTIN: 4052487044882

With longer threaded bolts for perimeter insulation. Can be screwed into the connection thread of earthing entries and earthing fixed points and used to connect round or flat steel.

Advantages:

- Easy installation thanks to twist resistance technology

Dimensions:

- For perimeter insulation applications up to 80 mm

Material:

- V4A (AISI 316L)

Threaded
bolt: M12
