

Finger sleeves

in hot shrink-fit method

4FM 1x55-21 4x20-7

: 5170060040, GTIN: 4052487233392

3 and 4-finger sleeves can be used to insert multiple cables into system cover sockets, even providing a means of sealing cables with a small cross-section. Sealing is carried out using the hot shrink-fit method (by feeding in heat).

Advantages:

- 3 or 4 cables can be installed in system cover sockets
- Wide area of application/shrink range

Material:

- Polyolefin

For system cover:	HSI90 D3x32, HSI150 D7x33
Shrinking range connection side (mm):	55 - 21
Shrinking range system cover (mm):	20 - 7
