

Finger sleeves

in hot shrink-fit method

3FM 1x44-13 3x16-4,2

: 5170060010, GTIN: 4052487233408

3 and 4-finger sleeves can be used to insert multiple cables into system cover sockets, even providing a means of sealing cables with a small cross-section. Sealing is carried out using the hot shrink-fit method (by feeding in heat).

Advantages:

- 3 or 4 cables can be installed in system cover sockets
- Wide area of application/shrink range

Material:

• Polyolefin

For system cover: HSI90 D3x32, HSI150

D7x33

Shrinking range connection side 44 - 13
