

KG-FIX Wall collar

KGF160

Article no.: 3030537198, GTIN: 4052487244817

Quick, tool-less assembly

• contains recycled plastic

Water barrier flange for water pressure-tight integration of waste water pipelines in floor slabs.

Picture may differ from selected product

FACTS

Advantages:

• High dimensional stability thanks to two components injection molding

Properties:

- Suitable for all standard smooth pipes
- 2 TPE profile double sealings

Application range:

• Waterproof concrete stress class 1, waterproof concrete stress class 2

Material:

- ABS-Regranulate/TPE
- 68 % regranulate

Tightness:

- Pressure tight up to 5,0 bar \triangleq 50 m water column
- radon tight

FEATURES

262

Suitable for medium pipe OD 1

(mm):

160

Packing unit: 1
