### Wall collar

# KGF110

Article no.: 3030300095, GTIN: 4052487156721

Water barrier flange for water pressure-tight integration of waste water pipelines in floor slabs.

Picture may differ from selected product

## **FACTS**

### **Advantages:**

• High dimensional stability thanks to two components injection molding

### **Properties:**

- Suitable for all standard smooth pipes
- 2 TPE profile double sealings

### **Application range:**

• Waterproof concrete stress class 1, waterproof concrete stress class 2

#### **Material:**

ABS/TPE

### **Tightness:**

- Pressure tight up to 5,0 bar ≜ 50 m water column
- radon tight

## **FEATURES**

: 212
Suitable for medium pipe OD (mm): 110
Packing unit: 1
