

Always. Reliable. Tight.

Bellmouth Wall Sleeve

for setting in concrete

BWS200/200

Article no.: 0827030200

- **Easy adjustment to the wall thickness on site – using available cable ducts**
- **Frame connection system for creation of packages on site – compatible with all three sizes**
- **Blind plate with break-through feature**

For installation flush with the formwork and use of standard press seals.

Picture may differ from selected product

FACTS

Advantages:

- Integrated bellmouth shape protects the cables from damage
- Blind plate ensures pressure tightness right after concreting
- Trisection division of the blind plate for easy breaking through
- Patch flange for processing polymer modified bituminous thick coatings

Properties:

- Middle flange serves as water barrier
- Lugs for secure fastening to the reinforcement with tie wire
- Nail lugs with break protection for attachment to the formwork

Material:

- ABS

Tightness:

- Gastight and watertight up to 1 bar, right after concreting

FEATURES

Wall sleeve ID (mm) d1:	200
Wall sleeve ID (mm) d2:	200
Patch flange OD (mm) d3:	300x300
Minimum wall thickness (mm) d4:	120
